

Urushi Sky Blue

Uniquely, Koetsu produces five Urushi models with an almost identical specification – silver-clad high-purity copper coils with a boron cantilever and rosewood body – at the same price.

The difference is the type of Urushi lacquer finish, and the relative degree of hardening it applies to the rosewood body as a result. While each one retains Koetsu's legendary richness, harmonic structure and midrange clarity, each has a character all of its own. The beautiful Sky Blue is all about balance and delicacy

Specifications

Body: Rosewood w/Urushi Laquer
Type: Moving Coil
Coil Wiring: Silverplated Copper
Magnet: Samarium Cobalt
Cantilever: Boron Cantilever
Output: 0.4 mV
Frequency Range: 20Hz to 100kHz
Channel Separation: 30db / 1kHz
Inner Impedance: 5 Ohm
Channel Balance: 0.5 db / 1kHz
Recommended Load Impedance: 75-500 Ohm
Recommended Tracking Force 1,8-2,0g
Weight: 9,3g
Compliance: 5×10^{-6} cm/dyne at 100Hz
Stylus design: special Sugano design
(no other manufacturer uses this design)
