

Urushi Vermillion

All Koetsu Urushi models use silver cladded ultra-high purity copper coils. This process involves a silver sheath being slowly drawn over the copper. However, the Urushi Vermillion uses a unique combination of silver and copper wiring, with fewer turns than other Urushi models, resulting in lower mass and output. Sonically, the Vermillion is the fastest and most detailed sounding Urushi. Many say the Urushi body Koetsus offer an even more exciting sonic signature compared to the standard Rosewood models.

Specifications

Body: Rosewood w/Urushi Laquer
Type: Moving Coil
Coil Wiring: Double Coil - Silver / Copper
Magnet: Samarium Cobalt
Cantilever: Boron Cantilever
Output: 0.2 mV
Frequency Range: 20Hz to 100kHz
Channel Separation: 30db / 1kHz
Inner Impedance: 5 Ohm
Channel Balance: 0.5 db / 1kHz
Recommended Load Impedance: 50-500 Ohm
Recommended Tracking Force 1,8-2,0g
Weight: 9g
Compliance: 5×10^{-6} cm/dyne at 100Hz
Stylus design: special Sugano design
(no other manufacturer uses this design)
